BIODIVERSITY SURVEY

The results of our own survey of the biodiversity on our land is listed here. It's by no means an exhaustive list, but does demonstrate just how many species are present and why organic farming is better for wildlife. List correct as of May 2011.

BIRDS

Woodpigeon
Goldfinch
Swallow
Blackbird
Song Thrush
Robin
Kestrel
Sparrowhawk
House Sparrow
Dunnock
Blue Tit
Great Tit
Redwing
Fieldfare
Hobby
Merlin
Little Owl
House Martin
Wren
Chiffchaff
Willow warbler
Starling
Chaffinch
Spotted flycatcher
Greenfinch
Crow
Jackdaw

WILD PLANTS

Annual Nettle
Perennial Nettle
Red Campion
White Clover
Tufted Vetch
Black Medick
Thale Cress
Shepherd's Purse

WILD PLANTS (cont.)

Swine Cress
Sow Thistle
Catsear
Good King Henry

CULTIVATED PLANTS
with biodiversity value

Cocksfoot
Crimson Clover
Corsican Pine
Macra Carpa
Willow
Phacelia
Mustard
Euonymous
Pittosporum
Escallonia

BUTTERFLIES

Cabbage White
Meadow Brown
Small Copper
Peacock
Red Admiral
Small Totoiseshell
Speckled Wood
Small Blue
Comma
Orange Tip
Painted Lady

OTHER INSECTS
